Get caught in a web of fun! Increase your spider knowledge, from basic body parts to how orb weaver spiders spin their webs. Find out how baby spiders use ballooning to find a new home. You'll even get to design and weave a web of your own to take home!

THE ARTS AND NATURE

Wednesday July 27 • 10:30 am – 12:00 PM

Get creative with us! Experience the four step process of Nature Explore's "Look, Move, Build, Sketch" art technique! We will start by looking at natural artifacts, then move our bodies to create shapes found in nature such as flowers and trees. We'll build with tree blocks and other natural materials, and finally we will sketch and paint what we see in nature!
