Introduction to Vegetable Gardening Class

Saturday, February 29 9:30am-11:00am & 11:30am-1:00pm

Just in time for planting season! Get tips on organic vegetable gardening and how to grow food at home from local grower, Amanda Vanhoozier. Amanda is a passionate local food advocate who has been instrumental in the growth and success of Coppell Community Gardens and the Coppell Farmers Market. Learn more about her adventures with local agriculture at justpickedtx.com.

Advance registration required

Bird Migration

Saturday, March 14 10:00am-11:00am

Why do birds fly south for the winter? Discover why insects, mammals, birds, and fish migrate or move seasonally from one region to another.

Presented by Wild Birds Unlimited
Advance registration required

Plant Combos & Companions

Saturday, April 4 9:00am-11:00am

You know the plants, now learn the combinations that will make each of your plantings pop! This class will help you create year-round aesthetic beauty by combining plants that offer refreshing seasonal interest with vibrant contrasting colors and textures. Grow your garden design skills with these innovative concepts and bring the wonders of the botanical world to your landscape.

Presented by AgriLife Water University
Advance registration required

City Nature Challenge

Saturday, April 25 10:00am-12:00pm

Participate in the City Nature Challenge and help document the plants and animals of Coppell Nature Park! Become a citizen scientist by using a personal mobile device to collect data while exploring the trails.

All ages are welcome. No registration is required.

Summer Kick Off Craft Day

Saturday, May 30 10:00am-1:00pm

Celebrate the start of summer at the Biodiversity Education Center! Craft new treasures out of recycled materials to take home.

All ages are welcome. No registration is required.

Family Friendly Gardening

Saturday, June 13 9:00am-11:00am

In this class you'll learn how to create a safe, beautiful, interactive space every member of the family will love. Discover ways to bring your children back to nature with simple tips for butterfly gardening, edible landscapes, and sensory gardening. Shrink your lawn and maintenance bill so your household can explore, learn and grow together.

Presented by AgriLife Water University
Advance registration required

Sensational Succulents

Saturday, July 11 9:00am-10:00am

Succulents are one of the hottest trends in gardening for good reason. Not only are they easy to grow, needing very little water and attention but they can also be dazzling additions to containers and landscapes: available with diverse colors, assorted textures and even spectacular blooms! Learn all about growing various cacti, sedums, aloes, agave and more Texas tough perennials from the ground up.
