

Wild Mondays are geared toward families and youth ages 4-14. These free "come and go" events feature hands-on learning/activity stations. The activities generally take 30-40 minutes to complete. Participants may arrive and begin the activity anytime between 6:15pm and 7:00pm. RSVP's are requested, but not required, by contacting cnp@coppelltx.gov or calling 972-304-3581.

INCREDIBLE JOURNEY

Monday September 28 6:15 pm - 7:30 PM

Where does water come from, and where does it go? Take a journey through the steps of the water cycle! Travel through stations in small groups, learning about different processes of the water cycle at each stop!

ANIMAL ARCHITECTS

Monday October 5 6:15 pm - 7:30 PM

Why do animals build homes? What materials do they use? Find the answer to these questions and many more through hands-on experience and discussion at "Animal Architects"! Participants will investigate different types of animal homes and be invited to "build" their own using natural supplies, such as twigs, leaves, twine, pinecones, acorns, and more.

WHAT DO THE BIRDS EAT?

Monday October 12 6:15 pm - 7:30 PM

What foods can you place in your yard to feed birds? Learn how different types of foods attract different birds, as well as the importance of water and cover habitat. Bring your empty milk jugs or water/soda bottles with you and build a bird feeder using these upcycled milk jugs and water/soda bottles. You can take your feeders home or donate them to be placed behind the Coppell Nature Park bird watching wall.
