

# FUN AT THE BIODIVERSITY EDUCATION CENTER

# WILD SUNDAYS

## THE "LITTLE" WORLD

Sunday, September 25 • 2:30 - 4:00 PM

Take a small-scale look at the world around you! Use microscopes to look at plant cells, insect parts, and much more. We will also make an onion tissue slide.

## BEEES AND BUTTERFLIES

Sunday, October 23 • 2:30 - 4:00 PM

What's the "buzz" on bees and butterflies? Come learn about the important role these pollinators play in our world. Get a chance to meet a bee keeper, talk to an entomologist, and learn about the parts of a flower.

## FOSSIL FRENZY

Sunday, November 13 • 2:30 - 4:00 PM

Search for fossils in Cottonwood Creek at the Coppell Nature Park! We will look for some common fossils from the inland sea that once covered parts of Texas. We will also do some creekside gravel bar sorting and look at other fossils as well.

## FAMILY ACTIVITIES

Wild Sundays are geared toward families and youth ages 4-14. These free "come and go" events feature hands-on learning/activity stations. The activities generally take 30-40 minutes to complete. Participants may arrive and begin the activity anytime between 2:30pm and 3:30pm. RSVP's are requested, but not required, by contacting [cnp@coppelltx.gov](mailto:cnp@coppelltx.gov) or calling 972-304-3581.

**BIODIVERSITY EDUCATION CENTER, 367 S. FREEPORT PKWY. • COPPELL, TX**

## WILDFLOWER SEEDING • SATURDAY, OCTOBER 15 • 9:00 A.M. - 9:30 A.M.

MOORE RD. PARK • 600 N. MOORE RD.

Gather your friends and family, scout troop and neighbors for a fun, free event. Reminisce on what Coppell looked like as a prairie and do the "buffalo stomp" with the herd of seeders. Enhance the beauty of the trail system of Moore Road Park by participating in the wildflower seeding.
